Pedi-Smart® Compression Anklet

Helps Control Edema After Injury or Surgery

- Provides graduated compression from metatarsals to calf to assure increased venous activity
- Eases pain, reduces swelling, speeds healing
- Lightweight elastic stretches comfortably for optimal fit
- Use conservatively following ankle sprains, post-op after foot or ankle surgery
- Provides Grade III compression (30-40mm Hg)

Treatment, Too

New!

FasciaFIX® Plantar Fasciitis Relief Sleeve

Eases Heel & Arch Pain

Soft, elasticized ankle with unique knitting pattern provides heel and arch compression to minimize swelling, support fascia ligament and relieve pain. Tactile 'nodules' help stimulate circulation. Worn over or under socks. Daytime or nighttime use to ease morning discomfort. Add this to your PF treatment protocol. Also helpful for Achilles tendon conditions. Provides 25-35 mmHG all over compression, with 30 mmHG at arch.
